To Whom It May Concern -

I am writing this letter to recommend Kevin Manning to you as a library/institutional presenter.

We hosted Kevin in August for an Astronomy program. The program was attended by a large audience of all ages, from children as young as five to adults in their 70s. Kevin kept all attendees enthralled and engaged for a full two-session - with Q&A following, providing real bang for our programming dollar.

Kevin is a dynamic and engaging speaker, communicating often-difficult concepts to a diverse audience in friendly, humorous, and understandable way.

I have been booking library programmers for 12 years, and have never encountered a library programmer as entertaining and edifying as Kevin. His "Look Up To The Stars" program was the best library program I have booked in my professional career, and I enthusiastically recommend him to all libraries and institutions considering booking him for a program.
